

## **Notice of Policies and Practices to Protect the Privacy of Patient Health Information**

THIS NOTICE DESCRIBES HOW PSYCHOLOGICAL AND MEDICAL INFORMATION ABOUT YOU MAY BE USED AND DISCLOSED AND HOW YOU CAN GET ACCESS TO THIS INFORMATION. PLEASE REVIEW IT CAREFULLY.

### **I. Uses and Disclosures for Treatment, Payment, and Health Care Operations**

We may use or disclose your *protected health information (PHI)*, for *treatment, payment, and health care operations* purposes without your *written authorization*. To help clarify these terms, here are some definitions:

- *“PHI”* refers to information in your health record that could identify you.
- *“Treatment, Payment, and Health Care Operations”*
  - *Treatment* is when we provide, coordinate, or manage your health care and other services related to your health care. This includes the coordination or management of your health care with a third party. For example, we can disclose your PHI, as necessary, to a provider involved in your care or to which you have been referred, to ensure that provider has the necessary information to diagnose or treat you. However, it our practice to only do so if you have directly authorized us in writing, unless the disclosure meets the criteria under Section III. Uses and Disclosures Without Authorization.
  - *Payment* is when we obtain reimbursement for your healthcare. Examples of payment are when we disclose your PHI to your health insurer to obtain reimbursement for your health care or to determine eligibility or coverage.
  - *Health Care Operations* are activities that relate to the performance and operation of our practice. Examples of health care operations are quality assessment and improvement activities, business-related matters such as audits and administrative services, and case management and care coordination. We may call you by name in the waiting room when your therapist is ready to see you. We may use or disclose your PHI, as necessary, to contact you to remind you of your appointment.
- *“Use”* applies only to activities within our practice such as sharing, employing, applying, utilizing, examining, and analyzing information that identifies you.
- *“Disclosure”* applies to activities outside of our practice such as releasing, transferring, or providing access to information about you to other parties.
- *“Authorization”* is your written permission to disclose confidential mental health information. All authorizations to disclose must be on a specific legally required form.

### **II. Other Uses and Disclosures Requiring Authorization**

We may use or disclose PHI for purposes outside of treatment, payment, or health care operations when your appropriate authorization is obtained. In those instances when we are

asked for information for purposes outside of treatment, payment, or health care operations, we will obtain an authorization from you before releasing this information. We will also need to obtain an authorization before releasing your Psychotherapy Notes. “*Psychotherapy Notes*” are notes we have made about our conversation during a private, group, joint, or family counseling session, which we have kept separate from the rest of your medical record. These notes are given a greater degree of protection than PHI.

I will also obtain an authorization from you before using or disclosing: · PHI in a way that is not described in this Notice.

You may revoke all such authorizations (of PHI or Psychotherapy Notes) at any time, provided each revocation is in writing. You may not revoke an authorization to the extent that (1) we have relied on that authorization; or (2) if the authorization was obtained as a condition of obtaining insurance coverage, law provides the insurer the right to contest the claim under the policy.

### **III. Uses and Disclosures without Authorization**

We may use or disclose PHI without your consent or authorization in the following circumstances: This includes certain narrowly-defined disclosures to law enforcement agencies, to a health oversight agency (such as HHS or a state department of health), to a coroner or medical examiner, for public health purposes relating to disease or FDA- regulated products, or for specialized government functions such as fitness for military duties, eligibility for VA benefits, and national security and intelligence.

- *Child Abuse* – If we have reason to believe that a child has been subjected to abuse or neglect, we must report this belief to the appropriate authorities.
- *Adult and Domestic Abuse* – we may disclose protected health information regarding you if we reasonably believe that you are a victim of abuse, neglect, and/or self- neglect or exploitation.
- *Health Oversight Activities* – If we receive a subpoena from any Maryland Board of Examiners of Psychologists or Social Workers because they are investigating our practice, we must disclose any PHI requested by the Board.
- *Judicial and Administrative Proceedings* – If you are involved in a court proceeding and a request is made for information about your diagnosis and treatment or the records thereof, such information is privileged under state law, and we will not release information without your written authorization or a court order. The privilege does not apply when you are being evaluated by a third party or where the evaluation is court ordered. You will be informed in advance if this is the case.
- *Serious Threat to Health or Safety* – If you communicate to us a specific threat of imminent harm against another individual or if we believe that there is clear, imminent risk of physical or mental injury being inflicted against another individual, we may make disclosures that we believe are necessary to protect that individual from harm. If we believe that you present an imminent, serious risk of physical or mental injury or death to yourself, we may make disclosures we consider necessary to protect you from harm.
